

# Lifeboat - Unmasked

SayWeCanFly

Keep a lifeboat tied to my bedside  
In case my ship goes down at the wrong time  
You're the lighthouse there in the night sky  
Far away at the bay, but it's alright  
My apartment is cold in the morning  
All the days that you woke up before me  
Sleeping in cause I thought I could afford it  
I should've known but I always just ignored it  
Made a paper heart on the subway  
Gave it to me, said that I would keep it always  
Still inside my wallet I look at it everyday  
Needed something to remind me of the good things  
But there's a time and place for everything, and I know that  
You needed some time away, had to go, yeah  
Find the stars in outer space, trying to glow, yeah  
We've been doing better things, wish I could show you

Got a whip, got a watch, got it so chill  
Making money talking 'bout the shit that I feel  
Think it's funny 'cause I never feel complete still  
Hundred twenty down the highway, missing you yeah  
Got a whip, got a watch, got the windows down  
It's not the same in the city when you're not around  
You're the lighthouse there in the night sky  
And you're the lifeboat tied to my bedside, yeah

I've been feeling down so I've been listening to Posty  
Helping me get through the times of missing you the most, see  
I'm not really busy I just take a lot of selfies  
Hoping that you're scrolling through and see it on your post feed  
Miss me when you're lonely, it's only a pipe dream  
Take you out for dinner then we'll get your favourite ice cream  
I am so sick and tired of being vulnerable  
But at the same time it makes the time pass slow  
So I do love it so Pokémon Go  
Maybe I can catch you if I just let you know

Got a whip, got a watch, got it so chill  
Making money talking 'bout the shit that I feel  
Think it's funny 'cause I never feel complete still  
Hundred twenty down the highway, missing you yeah  
Got a whip, got a watch, got the windows down  
It's not the same in the city when you're not around  
You're the lighthouse there in the night sky  
And you're the lifeboat tied to my bedside, yeah

Got my twenty-ten whip that shit is beat yeah  
Got my watch for twenty dollars shit was cheap yeah  
Make a couple thousand every other week, chill  
I'mma save it just in case you comin' back still  
I'mma save it for the trips we never took yeah  
Little payment on the houses that we looked at  
Think it's funny cause I never feel complete still  
One hundred twenty down the highway missing you, yeah  
Yeah
