

## Part Of Me

SayWeCanFly

Oh, my love, you've been in pain  
And I can't make it go away  
Doesn't really matter what the hell I say  
Some things just are meant to stay

Please forgive all my mistakes  
So I can finally turn my page  
And know that with your smiling face  
You're lighting someone else's way  
You're lighting someone else's way

But I still think about you everyday  
'Cause I'm still missing a part of me  
Knowing that you're happy doesn't heal my pain  
'Cause I'm still missing a part of me

Never thought I'd be here now  
Had the world but I turned it down  
Now I search for you everywhere I go  
But some things should be left alone

When I tried to let you go  
I just love you even more  
Loneliness is best alone  
It's the debt I pay for the hearts I broke  
It's the debt I pay for the hearts I broke

But I still think about you everyday  
'Cause I'm still missing a part of me  
Knowing that you're happy doesn't heal my pain  
'Cause I'm still missing a part of me

I'm still missing a part of me  
I'm still missing a part of me
