

Pavement

SayWeCanFly

I can feel you breathing slow
Laying next to me I hope
I don't have to say goodbye

Breathing in the cold night air
As you're playing with my hair
I just want you by my side

Drinking coffee after midnight
Smoking cigarettes 'till sunrise
I could do this all the time with you

We'll talk about the universe
Take polaroids of us together
Fuck it let's do stick and poke tattoos

Make my body your canvas
I've got love and you can have it
Tag my body with your spraypaint
I've got love, I'll be your pavement

Damn I love it when you speak
Talking 'bout your poetry
'Cause I know it makes you smile

Like a sparrow in the spring
I know you've got some broken wings
But you've got strength just like a lion

Tell me about all your heartbreaks
Tell me every single mistake
You know that I like your wild side

Driving with the windows open
Honestly I'm kinda hoping
You might be the Bonnie to my Clyde

Make my body your canvas
I've got love and you can have it
Tag my body with your spraypaint
I've got love, I'll be your pavement
Make my body your canvas
I've got love and you can have it
Tag my body with your spraypaint
I've got love, I'll be your pavement
