

Live It Up

SB19

Hey you, are you feeling okay today?
I hope there's something I can do to undo
All that disrupts you, yeah
(Lemme reconnect with you)

Are you missing me?
I'm one call away, so don't you worry
'Cause I'm always here
Whenever you need me

Don't stop 'cause you got your friends and family
Live it up and we gon' conquer the world everyday
Don't stop we got each other, come what may
And I know that there will be better days
So live your world anyway

When we're together
We are much stronger
And yeah we're gonna
Conquer the world everyday
When we're together
We are much stronger
And yeah we're gonna
Conquer the world everyday

Aye! Do you feel disconnected?
Maybe you're in trouble, need to shoot that
Don't you ever left that virus get in your system
I'll be your sole protection, yeah
'Cause the link that we have's secured (Secured)
Everything is rest assured (Assured)
Safe with me
All difficulty surely becomes easy (Yeah)

Are you missing me?
I'm one call away, so don't you worry
'Cause I'm always here
Whenever you need me

Don't stop 'cause you got your friends and family
Live it up and we gon' conquer the world everyday
Don't stop we got each other, come what may
And I know that there will be better days
So live your world anyway

When we're together
We are much stronger
And yeah we're gonna
Conquer the world everyday
When we're together
We are much stronger
And yeah we're gonna
Conquer the world everyday

I know life ain't always easy, yeah
It's harder if you got nobody
I'm thankful that I'm lucky I got you, you so I-I-I-I-I-I

Won't stop 'cause I got you, friends and family
Live it up and we gon' conquer the world everyday (Everyday)
Don't stop we got each other, come what may
And I know that there will be better days
So ace your world anyway

When we're together
We are much stronger
And yeah we're gonna
Conquer the world everyday
When we're together
We are much stronger
And yeah we're gonna
Conquer the world everyday
