

Make Your Green Mark

SB19

We gon' make life good today
Hope is on the way
Celebrate now
We have got the power to change
Take every step of the way
So ace your day now

I just had a dream, umm
It's the best thing I've seen
Wait, what's goin' on?
You was walking on
What it seemed to be green
But greener than green (Right!)
This is our home but isn't ours alone
'Til we all gone we keep it safe from
Any harm for everyone
You hold the life until all your days are gone
Wake up!

You have it all in you
Rebuild and make it new
Know that I'm in it too
And together

We gon' make life good today
Hope is on the way
Celebrate now
We have got the power to change
Take every step of the way
Tomorrow is now

Make your green mark
Make your green mark

Make your green mark
'Cause we just can't restart
You and I is all we've got, let's not mess up
Just kidding (Not really)
'Cause I'm all in for the healing
No kidding (Yeah, really)
It's the future that we're living

We gonna make it through
'Cause I believe in you
I bet that we all do
"Now", gets better

We gon' make life good today
Hope is on the way
Celebrate now
We have got the power to change
Take every step of the way
Tomorrow is now

Make your green mark
Make your green mark

Are you ready to make it all brand new?
Yeah, you know what to do
Make your green mark
Are you ready to make it all brand new?
Yeah, you know what to do
Make your green mark now
