

Get ready for the night, I'm ready  
I've been waiting for this night for so long  
Get ready for the night, you ready?  
I've been waiting for this night for so long  
Get ready for the night

Are you ready for the lights, where the camera, we at?  
Baby go ahead and tap in  
Rest like the roof, where the diamonds and match?  
I think it's a habit  
I don't wanna be the one to save you  
But I flex my change you  
All the different angles, just a little sample  
Just a little preview

So take it easy baby, easy baby  
Don't you hurt me  
A little reason baby in me chasing  
Lord have mercy  
And we can take time  
And light the flame  
Got me numb like a Novocaine  
Need just a little bit more

And I can be the one  
Let you catch those flights  
'Cause our feelings  
So baby tell me how we're living  
Ready set go, let's have a little toast  
'Cause I'm taking off with you

Get ready for the night, I'm ready  
I've been waiting for this night for so long  
Get ready for the night, you ready?  
I've been waiting for this night for so long

Get ready for the night (Oh-oh-oh)  
Get ready for the night (Oh-oh-oh, oh)  
Get ready for the night (Oh-oh-oh)

So baby I give you stock options  
Boss up your function  
Yeah, you're talking to the funnel  
Let me level up your life (Life, life)  
I'll break you to a villa what you like  
Tonight, night, night, night  
Oh, baby  
Penthouse life we're living  
And we catch flights, not feelings  
And I can put you down, down, down if you with it

And I can be the one  
Let you catch those flights  
'Cause our feelings

So baby tell me how we're living  
Ready set go, let's have a little toast  
'Cause I'm taking off with you
