

Going Away

SBB

We come and rise
Today is the day
A giant surprise
We're going away
We're gonna fly
Gonna search the sky
Stars all around
We're taking off the ground
Come on, join the crew!
Come on, join the flight!
Everyone who loves anew
Gonna get high
We'll sail across the sky
Between the moon and stars
Across the universe
Along the planets' path
We'll spin around the Sun
Tripping toward Mars
So, get on your feet!
Come on, don't be late!
Too late to retreat
We're going away
Going away
