

GHOST

SBTRKT

I just wanna ghost I could fade away
We could plan a day and just go or I'll go alone
If you wanna stay just let me know
I could pave the way if your mind should change
Just follow - I just wanna go - I just wanna

I just wanna ghost I could fade away
We could plan a day and just go or I'll go alone
If you wanna stay just let me know
I could pave the way if your mind should change
Just follow - I just wanna go - I just wanna

(That magic)
Ending conversations
Excuses that I made up
Living in my ghost town
Keep my inner voice down
I'm trying not to end up
(Dead) Too much information
Processing the problem
Danger in the doldrums

I just wanna ghost I could fade away
We could plan a day and just go or I'll go alone
If you wanna stay just let me know
I could pave the way if your mind should change
Just follow - I just wanna go - I just wanna

I just wanna ghost I could fade away
We could plan a day and just go or I'll go alone
If you wanna stay just let me know
I could pave the way if your mind should change
Just follow - I just wanna go - I just wanna

Long lost
Excuses that I made up
Against my better nature, my nature, my nature, my nature
Long lost
Hidden information
Didn't see the traces
Faces on, faces on, faded on faded
I'm faded I'm faded, I'm faded I'm fading
I'm faded I'm fading, I'm faded I'm fading

Clearly they trying me
See that drowning me
Know that they finding me
I'm out here alone
Say that im making it up
Making it up on my own
Thinking you already won
We should just break it and ghost
