

LIMITLESS

SBTRKT

Oh, oh, oh, oh
Went direct
I just went along, no questioning
Even on my own
Yeah

Caught between the limit and the limitless
Stop myself downloadin' what I can't forget
Tell me somethin', I know I can get ahead a bit
How's it goin'? Still goin', we went through Hell and came back
In four nights, had a vision of what ambition is
You used to wear my heart somewhere it didn't fit
You used to give too much, now we don't give a shit
Early still, we grow within

Never too old for a lesson
Never too old for a less-
Never too old for a blessing
Open your heart
Never too old for a lesson
Never too old for a less-
Never too old for a blessing
Open your heart and-

Just like you
Just like me, we self-destruct
Just like new times, my will still can't reach deep enough
It sits on a loop behind these eyes
You know it's on you to find piece of mind
No other way
Runnin' the lanes, we free, feel up the days a week
Ain't it just like you
Vivid dreams to laugh and learn
Just like new, tie my wings so I can heal enough
And it's all views up high in these heights
Win or lose, sometimes I fly out needless or nothin'
All the same, ooh

Yeah
Yeah

I'm just done with the rhetoric
Still go along with for the hell of it
Just to know that tomorrow could all be better than
Just to know I'm still callin'
Feeling gets lonely when I keep spiralin'
Stars in my eyes and I'm jumpin' out my skin
Left it behind, but now it keeps lingerin'
Lingerin', lingerin', oh, it's better

Just like you
Just like me, we self-destruct
Just like new times, my will still can't reach deep enough
We jump through hoops 'til our stars align
Win or lose, sometimes skies cry
No other way
Runnin' the lanes, we free, feel up the days a week

Caught between the limit and the limitless
Stop myself downloadin' what I can't forget
Caught between the limit and the limitless
And I see vivid dreams to laugh and learn
And I see, see
Even if there's a chance to save, oh
Even if, even if, even if there's a chance to
Oh
