

NO INTENTION

SBTRKT

Running it

Always something that we want
And you can't give it up
Picking the pieces where we left
It's never enough
To just be who we are
Ain't it easier
To leave things here right where they stand?

It's always wrong up close
Did you know that I'd run?
All this time to ourselves feels timely
Baby, know you hypnotise me

How do we let this die?
Now I've met this side of you
At the best of times
You make it feel real tonight
If it's a test, I tried
And now I can't let go, no, no
Pick up what's left and ride
Pick up what's left and go

I might be running these lights
Back to your apartment
Been running outside
To crack this beating heart of mine
A feeling this time
Is we might just make it over too
Baby, over to you

All that I want
All that need is more love
Keep my blade beside me
'Cause of all the ways you tie me up
Don't know where your heart's gone
Was owning it trouble enough for you?
When you find it, find it
Know I'm right here, right here
All I wanted is you

Baby, put your weight on me
Baby, can we wait on here?
Know you're messing with my mind, my mind
Baby, put your weight on me
Baby, can we wait on here?

Always something that you want
Didn't plan to feel the light go on
They don't bury deep enough
Chasing fire, get entangled with another love
Know me better than to bluff
I thought it'd be easier
Watching you give it up
Till we give it up
Did we give it up?

'Cause we both know by now

I might be running these lights
Back to your apartment
Been running outside
To crack this beating heart of mine
A feeling this time, oh
Is we might just make it over too
Baby, over to you

All that I want
All that need is more love
Keep my blade beside me
'Cause of all the ways you tie me up
Don't know where your heart's gone
Was owning it trouble enough for you?
When you find it, find it
Know I'm right here, right here
All I wanted is you

Baby, put your weight on me
Baby, can we wait on here?
Know you're messing with my mind, my mind
Baby, put your weight on me
Baby, can we wait on here?

All I want
And it's all I
All that I want, yeah
All that I wanted with you
And it's all I
All that I want, yeah
All that I wanted with you

My, my, my, my, my, my, my business, I keep taking it all
I keep taking it all, but I
In my, in my, my mind
My, my, my, my, my, my, my business, I keep taking it all away
