

## WAITING

SBTRKT

I been waiting for this moment my whole life  
I done lost so much sleep, worry 'bout this shit at night  
I been runnin' 'round just asking for advice  
But they just tell me what I'm thinking why think twice  
You know you wrong wrong wrong for what you did  
Just know that I won't forgive and I won't forget

(All of the times)

The times you left me standing in the cold

(All of the times)

The times I asked for help and you said "no"

(All of the times)

The times I said I was broke you said "so"

(All of the times)

The times I that I just can't let

I'm too big of a star

To be extra, I'm extra special

All of the times

All of the times

All of the times

All of the times

All of the times

All of the times

All of the times

All of the times
