

Tonight

Scandal

Slow dancin' with the night
She's driftin' away
She's ready for love in a real bad way
She feels you watchin' her so
Come and be in love with her tonight

Fast talkin' on the street
She's checkin' it out
Will the night be lost or will it turn out
You know she's watchin' you
And it's time to fall in love again tonight

Tonight, tonight
Tonight, tonight

She's fast walkin' indiscreet
With one thing on her mind
A night of love is so sweet
And so hard to find
Alone she is waiting
Yes, it's time to give your love again tonight

Tonight, tonight
Tonight, tonight

You are the one she's been waiting for
She is the one that you need
You are the one I've been waiting for
I am the one that you need

Tonight, tonight
Tonight, tonight
