

High Flier

Scanners

Mind control
We are better when we share one soul
We'll feel better when we share one soul
'Cause together we can form

You're a high flyer
Soaked in red light
Don't lose your way tonight
Just take it slowly

My third eye
You see better when you close your eyes
Maybe then perhaps you'll realize
That you'll never gonna fall

You're a high flyer
Soaked in red light
Don't lose your way tonight
Just take it slowly
