In world news today officials agree that rapper Brad Jordan alias $\operatorname{Scarface}$ m ust be stopped

After being monitored by secret service agents for two years

Evidence leads Tobacco and Fire Arms officials to believe that his

literally dope lyrics promote drug usage and distribution

Degrade women influence gambling promote and teach violence and more importantly

Its influencing our minors and destroying our young community Officials say, he's the lord of underground rap and his music must be stoppe d

We got this whole motherfucker on a mission

Now the whole entire world's gotta try to come up with a quick decision $\ensuremath{\mathsf{N}}$

They claim we threats to society

And now they callin on the government to try and make somebody quiet

For the bullshit they done to me

Gangsta Nip, Spice 1 or 2Pac never gave a gun to me

So gangsta rap ain't done shit for that

I've even seen white folks from River Oaks go get the gat

So why you tryin kick some dust up

America's been always known for blaiming us niggas for they fuck-ups

And we were always considered evil

Now they tryin to bust our only code of communicating with our people

Lets peep the game from a different angle

Matt Dillon pulled his pistol every time him and someone tangled

So why you criticize me

For the shit that you see on your tv

That rates worse than PG

Just bring your ass to where they got me

So you can feel the hand of the dead body

Nigga don't believe that song

That nigga's wrong

Gangstas don't live that long

(2x)

So now they tryin separation

And sendin black folks in white coats to infiltrate our congregation

Tappin into our conversation

Saying the message that they give

Bring forth or premeditation

So David's got a silver mag

While listenin to Brad, David gets mad and kills his dad

David Duke's got a shotgun

So why you get upset cause I got one

A tisket a tasket

A nigga got his ass kicked

Shot in the face by a cop, close casket

An open and sgut situation

Cop gets got, the want to blame it on $\ensuremath{\mathsf{my}}$ occupation

If you don't dig me, than nigga you can sue me

Because the shit that I be sayin ain't worse than no western money

Don't blame me blame your man Gotti

So you can feel the hand of the dead body

Nigga don't believe that song That nigga's wrong Gangstas don't live that long (2x)
