

Better

Scarlet Pleasure

Ooh, someday
It's gonna be a really bright day
So much brighter than it is right now
It gets better, it gets better
Yeah, someday
It will fall into place
See those cracks there in the cloud
It gets better, it gets better

Life can be tough, man, life can be hard
Been down here for so long
I don't feel anything now
I wanna get up, I wanna get out
Try to tell myself
"You can do anything, you can do anything"

Ooh, someday
It's gonna be a really bright day (Bright day)
So much brighter than it is right now
It gets better, it gets better (Better)
Yeah, someday
It will fall into place (It will fall into place)
See those cracks there in the cloud
It gets better, it gets better

Black, white, no light, lights on, I get up
Black, white, no light, lights on, I get up
Black, white, no light, lights on, I get up
I get up, I get up, I get up, I get up

I'll be back on my feet, yeah, I'll be back up (I'll be back up)
Been down here for so long
I don't feel anything now (Anything now)
I wanna be free, yeah, I wanna give love
Like my mamma said
"You can do anything (Anything), you can do anything" (Anything)

Ooh, someday
It's gonna be a really bright day (Bright day)
So much brighter than it is right now
It gets better, it gets better (Better)
Yeah, someday
It will fall into place (Oh)
See those cracks there in the cloud
It gets better, it gets better

Black, white, no light, lights on, I get up
Black, white, no light, lights on, I get up
Black, white, no light, lights on, I get up
I get up, I get up, I get up, I get up
Black, white, no light, lights on, I get up
Black, white, no light, lights on, I get up
Black, white, no light, lights on, I get up
I get up, I get up, I get up, I get up

Black, white, no light, lights on, I get up
Black, white, no light, lights on, I get up

Black, white, no light, lights on, I get up
I get up, I get up, I get up, I get up
