

## Flying (Echoes In The Sky)

Scarlet Pleasure

Mind is open wide  
And I'm flying  
Going through the roof  
I'm like lightning  
Higher than a kite  
Supersonic I collide  
Making echoes  
Echoes in the sky

Wake up wake up  
Right now  
Take off in about 5 now  
4 now 3 now  
2, 1, 0 and we'll be  
Out of here  
Out of mind  
Out of body  
Disappear into the night  
Kamikaze

Head so heavy might explode  
There goes gravity  
Let your  
Feet go  
Let go  
Off the ground and we go  
Nanana nanana nanana  
Nanana nanana nanana

Mind is open wide  
And I'm flying  
Going through the roof  
I'm like lightning  
Higher than a kite  
Supersonic I collide  
Making echoes  
Echoes in the sky

That's the sun don't touch  
I feel everything so much  
So much, this much  
So much love and we go  
Nanana nanana nanana  
Nanana nanana nanana

Mind is open wide  
And I'm flying  
Going through the roof  
I'm like lightning  
Higher than a kite  
Supersonic I collide  
Making echoes  
Echoes in the sky

Mind is open wide  
And I'm flying  
Going through the roof

I'm like lightning  
Higher than a kite  
Supersonic I collide  
Making echoes  
Echoes in the sky
