

Garden

Scarlet Pleasure

Sunset on your skin
Moonlight in your hand
Wait for it to begin
Bubbles in your glass

There's a ring in my ear, closing my eyes
Got me seeing colours like the 4th of July
Throwing up flares, words in the skies
If you get the message then give me a reply

Come and meet me in the garden
Put a flower in your hair
Show me everything I'm wanting
I wanna see it all right here, right here
Kiss from your lips like a kick in the teeth
Haven't felt like this since I was seventeen
Come on, meet me in the garden
Meet me in the garden, garden

Quick hit, take a bite
Quiet as we can
Upstairs, outta sight
Lights on, watch you dance

There's a ring in my ear, closing my eyes
Got me seeing colours like the 4th of July
Throwing up flares, words in the skies
If you get the message then give me a reply

Come and meet me in the garden
Put a flower in your hair
Show me everything I'm wanting
I wanna see it all right here, right here
Kiss from your lips like a kick in the teeth
Haven't felt like this since I was seventeen
Come on, meet me in the garden
Meet me in the garden, garden
