

Roll and light it up
Catch me if I'm falling down
Vamos a la playa, playa, yaya
Drown the trouble with a bottle, yaya
My whole world looks familiar
But everything is different
Vamos a la playa, playa, yaya
Drown the trouble with some bottles, yaya

I got my hopes up to the sky, to the sky asking why
We can't o-o-open the gates, love goes away
But Imma ride, Imma ride
I'mma dive 'til I found what I've lost, found what is lost

So let these ocean waves come cool me down
I need a day or two a week to clear my head
Need to kick back, need to rest
Won't you cool me down?
Why do I listen to these noise inside my head
I might kick back, I might rest

And I might dive into Nirvana, to Nirvana, to Nirvana
I might kick back, I might rest
Can I dive into Nirvana, to Nirvana, to Nirvana
Can I kick back, can I rest?

Roll and light it up
Catch me if I'm falling
Somewhere, somewhere there is a paradise
Wanna see it, but I don't wanna die

I got my hopes up to the sky, to the sky asking why
We can't o-o-open the gates, love goes away
But Imma ride, Imma ride
I'mma dive 'til I found what I've lost, found what is lost

So let these ocean waves come cool me down
I need a day or two a week to clear my head
Need to kick back, need to rest
Won't you cool me down?
Why do I listen to these noise inside my head
I might kick back, I might rest

And I might dive into Nirvana, to Nirvana, to Nirvana
I might kick back, I might rest
Can I dive into Nirvana, to Nirvana, to Nirvana
Can I kick back, can I rest?

Into Nirvana, to Nirvana, to Nirvana
Can I kick back, can I rest?
Into Nirvana, to Nirvana, to Nirvana
Yeah now, into Nirvana, to Nirvana, to Nirvana
Can I kick back, can I rest?
