Scarlet Pleasure

It's like you wanna see, see me down
It's mentally, physically stressing me out
I'm just tryna' live my days (yeah)
Just gimme, gimme space now

Thoughts on flight-mode
Please don't rush me
Different time-zone
I'm not in a hurry

Comin' right back up to speed
Don't fuck up my self-esteem

They play with me like I'm new
We've had to jump through hoops

Thankful for all it took
Even the downfalls too

Before I crack
Get off my back

It's like you wanna see, see me down
It's mentally, physically stressing me out
I'm just tryna' live my days (yeah)
Just gimme, gimme space

And I will be fine on my own
On a move on a flight
Into the zone
I'm just tryna live my days (yeah)
Just gimme, gimme space now

Indecisive, that's place I've been
Moment of silence
Before I jump back in

Comin' right back up to speed
Don't fuck up my self-esteem

They play with me like I'm new
We've had to jump through hoops

Thankful for all it took
Even the downfalls too

Before I crack
Get off my back

It's like you wanna see, see me down
It's mentally, physically stressing me out
I'm just tryna' live my days (yeah)
Just gimme, gimme space

And I will be fine on my own
On a move on a flight
Into the zone

I'm just tryna live my days (yeah)
Just gimme, gimme space now

Gimme, gimme space
Just gimme, gimme space now
