ScarLip

Turn the music up in my head a lil' bit, alright?

Woah

Woah, woah, woah

Woah, woah

Mm, mm

Mhm, mhm

Lord, please

Lord, please

Be patient with me

Be patient with me

Lord, please

Lord, please

Be patient with me

Be patient with me

Hmm, I go to church, then I sin again (Sin)

Cast out the demons, get rid of them (Rid of them)

I saw the light, it got dim again (Dim)

I took a L, then I win again (Win)

Lately, I been in survival mode (Yes)

Switchin' states like I don't got a home (Uh)

I told my baby to hold me close

Most of them people done did me wrong (Woo)

Goin' through it, I don't tell nobody (Nah)

I just start spazzin' on everybody (Woo)

Don't ask for help, I can't help nobody

I burned my bridges with everybody (Yeah)

This is my moment I'm prayin' for (Prayin')

All of them breakthroughs, I'm waitin' on 'em (Waitin')

I'm comin' up, no debatin' on it (Debatin')

Comin' up, they steady hatin' on me (Ah)

Lord, please

Lord, please

Be patient with me

Be patient with me

Lord, please

Lord, please

Be patient with me

Be patient with me

I just wanna thank you, Father

For always keeping grace

And always being patient with me

Through my ups and my downs, my highs and my lows

You've always been faithful to me, God

Not always have I been faithful to You

So I just wanna take this time to say thank You

I wanna say thank You for blessing me with my beautiful friends

My beautiful family and my beautiful fans

To my fans listening, I know y'all been patient

I just wanna say thank y'all for holding a real one down

Couldn't keep a real one down for too long, though, right? Haha

Lord, please

Lord, please

Be patient with me  
Be patient with me  
Lord, please  
Lord, please  
Be patient with me  
Be patient with me
