

# Apxcalypse

Scarlxrd

Easy! Yeah  
Ha, Scar-Lxrd  
Finish him (Go!)  
Fuck

You call this the end of the world? This shit's trash fam, do better  
It's gonna take way more to kill me, I'm infected whatever  
Taking me down they could never, ah (No way)  
Talk about doubt I don't get it, ah (Yeah)  
Sick of the sounds of regretting (Huh?)  
Don't push me steady, I want that shit heavy as fuck  
Make sure I'm ready to run, stick to the action-less guns  
Ate every enemy blocking my tendencies, felonies I can't discuss  
Chill with that, limbs will get detached  
Fuck the hate is back  
Rain it back, sadistic it's a fact  
Get on my twisted facts  
Now I really get it I'm the product of the fucked up shit  
Got a feeling loves not bliss  
With the hidden agenda caused this (Ayy, ayy)  
Building on my mission to level the forces

I feel like shit, ah  
But God knows I'm not dead yet, ah  
I feel like shit  
It's gonna take way more than living to kill me

Are you dumb? I'm Immortal think it's all good yeah we laugh in the face of  
death like, yeah, yeah, yeah, yeah  
Uh, la, la, la  
Ha, ha, ha, ha, ha  
I ain't scared of shit  
Okay yeah (Yeah)  
I keep lasting the times I've feared  
No relapsing my minds open  
They keep ramping the times not there  
No deep acting the doom is near  
They keep chatting the lines not clear  
The least actions results are clear  
Yeah, everyone failed in here

I don't feel no pressure  
Ain't no break I'm feeling fresher  
Talk my shit with every letter  
I do this shit for the pleasure  
Double up bands I'm getting them, ho'  
Stick to the money I'm blowing it slow  
Raw shit is running from out of the flow  
Flexing and stunting is out of control  
Really spit the pain from my mind  
Can't control it, ah  
Hidden in the places they can't find  
I'm evolving, ah  
Tell me all the shit that makes your vibe  
How you coping, ah  
All you niggas know just what I'm like  
Or your hoping

I feel like shit (Like shit)  
But God knows I'm not dead yet, ah (Dead yet)  
I feel like shit  
It's gonna take way more than living to kill me (Blah)

Back it up, just back it up (Back it up, just back it up)  
Back it up, just back it up  
Back up, bitch, just back on up (Back up, bitch, just back on up)  
Back up, bitch, just back on up (Back up, bitch, just back on up)  
Get up out my fucking face (Get up out my fucking face)  
Back it up, just back it up (Back it up, just back it up)  
Get up out my fucking face (Get up out my fucking face)  
Back it up, just back it up (Back it up, just back it up)
