Why would you lie to my face?  
Your bullshit it drives me insane  
Talk all that shit, you get bagged  
Sure I'm so sick of this crap  
I'll run up on you with the gang  
You ain't got nowhere to stand  
To break you is part of the plan  
They hate when i'm telling them facts (aye)  
Think that I've been here before (aye)  
I'm 'bout to kick in the door (aye)  
Sip on the gin some more (aye)  
I'm turning life to a corpse (aye)  
Hide that shit under the floor (aye)  
See they've been crawling then fall (aye)  
Writing with the blood on the walls (aye)  
I'm fucking your bitch she want more (yeah!)

I sit here alone i don't need nobody now, yeah  
Wrap your arms around me, suffocate me 'till I drown, yeah  
Everywhere is numb now  
My whole body's shutting down, yeah  
Thinking of this pain  
Got me feeling fucking down, yeah!  
I'm not a novice, I'm self-made  
Evil's picking up all my mistakes  
Run around 'till I escape  
Drop tapes like a drop-top  
Windows down, get a hotbox  
Lot stronger than death trap  
Sit down and I pow, pow  
I run and I hide from my nightmares  
I put knives in your eyes, I don't fight fair  
They see me with a tainted soul and tell me sign there  
I can't let you niggas know the shit in my brain
