Scarlxrd

Ayy, ayy
Yeah, yeah, yeah, yeah, yeah
Scarlxrd
Hahahahaha
Ah, okay
Daytrip took it to ten, hey

Wait, uh
You'll never take up my place, uh
Get up and ride on the wave, uh
Watch how I get it and change, yeah
Keep all the tips, I don't wait, uh
I told her, "Sit on my face," yeah
Sippin' on gin, I don't chase, uh
Saving, not spending the paper, yeah

Getting everything I fucking asked for since the start, yeah
I get stupid paid up just for spilling out my heart, yeah
I just got a new bitch, she rides dick incredible, yeah
If she falls in love too fast, her number's getting blocked
Demons all around still, so numb I can't feel
Course you're gonna hate, your life is shit, it's going downhill
Y'all all think I'm crazy
Fuck it I'm switching and changing it up
I change the pace, and I weave in the dust
I got the throne, I'm not giving it up (Yeah)
Making sure that everything I do is fucking heavy
Watch how everything I'll ever fucking do is legendary
I don't wanna slow it down, I wanna keep on resurrecting
Gotta plan it all out, no, I never will regret it
Never gave a fuck about a penny
Been had cash, now my racks on steady, uh
Living what I'm talking, evidently
Real life shit, no, no, don't tempt me, yeah

Stay in your lane, I know where the fuck I'm going
Keep a mask on my face, I don't need to fucking show it
Stay back in my cave, steady plotting, I'm so focused
I still laugh at the pain, now my pockets overflowing
Young Lxrd still goin' in like woah
Been the illest motherfucker here, I know
I won't share the cheats I code
Wanna chat shit then go ahead
Young Lxrd still goin' in like woah
Been the illest motherfucker here, I know
I won't share the cheats I code
Wanna chat shit then go ahead

Why does the devil try pick on my soul?
He still hits like a bitch, I could kill him and eat him
I am a legend, the stadiums next
I will sell that shit out, and I'm living to see 'em
They wanna talk tough and hate on the kid
I'm just focused on me, all you niggas are tweaking
Really just one of a kind, I'm a god
I'm a lord, I'm the biggest, you really gon' see it

Wait, uh
You'll never take up my place, uh
Get up and ride on the wave, uh
Watch how I get it and change, yeah
