

C. V FREESTYLE.

Scarlxrd

(Weh the bloodclat do you? Siddung, siddung)
Ayy, yeah, ay
(Cruisin' with the windows down)

Drop a new track and they click again
You see the vibe and it's glistening
Can't talk to no other citizens
Been on this social distance shit
Fuck a walk through I'm not mingling
Working on fucking the dissonance
The shit that they talk is not interesting
The shit that they talk gave me thicker skin
So wait
Keep it up I'm living okay
Won't downsize nigga I'm paid
Keep the strap like living's not safe
Keep my mask I been on this wave
Better act right villains on game
Gotta a bad side split in my brain
Gemini can't pick on which way
Hol' up

Let me pop the blue pill moving blind but I don't give a fuck
Even when they locked down somehow my name keeps on coming up
Better slow down nigga you gon' crash if you keep acting up
Jaws still like a trigger fuck the safety it's not jamming up
Been in my dome
Get a new address I'm gone
Nigga don't stress I'm grown
I don't do text I phone
Always had less than more
Now I got cheques I'm owed
Couple more mill then ghost
How many times I'm gold
Preload a mag when I'm dropping a casket
I reap what I sew and I'm sewing a classic
I swear down my real life is your life on acid
A nigga blinked twice and I really was moving
Keeping it locked I'm inside with a habit
Shit hit the fan and I never did panic
They think I'm juju and doing up magic
I'm made in hell still on my neck it's a madness
Ay, how many times I'm pro
Niggas got bands now living at home
Ay, how many times I'm pro
Ay, how many times I'm pro
Ay, how many times I'm pro
Ay, how many times I'm pro
Ay, how many times...
