Johnny asked me if I were afraid
Well, we killed nineteen of them today right in this area
Johnny, it takes you five minutes
You, you saw me
Weh the bloodclaat do you? Siddung, siddungBrian Spencer
Mi nuh waan nobody at all talk to mi right now, yuh hear? Everything alright
? Ready?
Plague
Bring that back, ayy

Figures I've got them sorted
My shit cost a fortune
Triggered I've got them haunted
Niggas they can't afford this
Bigger than I thought I'd reach
I just got here with caution
Been non-stop with grief
It's like my minds distorted
All of this life's recorded uh
The shit that's a lie's rewarded uh
Evil inside the core shit uh
Keep on just buying bullshit uh
Like I'm the one to prove it
Most of this life's assuming, uh
Don't you advise the culprit
Let 'em all bite the bullet

So much time, ain't no one can hold me back
I might be crazy in my mind, but I'm not blind to fucking facts
I swear I'm feeling fucking fine, can you close your fucking mouth?
I see your living in a lie, I see your life is fucking trash
What you know about this?
Keep calm carry on to your bits
Surgical mask on face like always
Fuck a pandemic these scars case risk
Wah?
I done charged up big
Full energy like I'm still jacked in
Couldn't force me to quit this shit
I'm too sick they reached but they still couldn't touch this king
Line up my shots then swing
Scars could never stop this ting
I'm a boss that's really insane
No games the plays I make they caused me to win
That's mind games

Still like to play shit high stakes
Ain't underrated I'm fine mate
Developed patience my sake
Huh
Fuck

What you know about me
Keep calm carry on been jamming non-stop
Lost track of the time go hard till I drop
Yeah I starved for my spotlight (li, like)
What you know about me
