I might try for a little bit
Try my life for a little bit, yeah
I might vibe for a little bit
Sell my vibe for a little bit, yeah
Climb these heights for the thrill of it
I don't thrive with a little concern
I gave life for the thrill of it
I don't give a fuck about concern

I don't give a fuck about concern
I don't give a fuck about concern
I don't give a fuck about concern
I don't give a fuck about concern

Don't hold me back in a distant time
I'm way too unstable to change my mind
I keep intact in my mind
I'm numb to these favours, they've made me blind

I might try for a little bit
Try my life for a little bit, yeah
I might vibe for a little bit
Sell my vibe for a little bit, yeah
Climb these heights for the thrill of it
I don't thrive with a little concern
I gave life for the thrill of it
I don't give a fuck about concern

I don't give a fuck about concern
I don't give a fuck about concern
I don't give a fuck about concern
I don't give a fuck about concern
