

You are now tuned into LxrdAudix
Drop after drop
Scar-
This is only the beginning
Pull, pull, pull up that boy, wheel up!

Make sure they stay tripping on what I've done
Motivation: "Have to kill it, got no choice"
I see you're built to give up at the start
That could never be me: "Push until it scars"
Make my own way, I speak my mantras in the dark
Lost count of times I've had to pray to God
My mind is Hell, that's why I work so hard
And even still, the top is not enough
It's not enough, no, I'll get it figured out
I say, "Fuck them", why they always tryna count me out?
So I'ma start problems, they brought the villain out
Looking for the limit that they speak about
Focused on the target, I had to stake it out
Expand operations since I came around
Now they call me Scarface, the name gon' fit me now
Made enough to glisten, but I'd rather frown (Uh, yeah)

Daytime, find me in my mind at the dojo
Play conversations in my mind just to focus up
If I don't believe in live or die, then my soul lights up
Watch the shit I'm weaving in my life, I can't fuck it up, I can't
I can not fucking wait to feel safe
This iridescence makes me realise
I guess I fucking wasted all my time
Oh, the lesson's late to learn, I know
Path's not final, stay calm, feeling with the nerves of a psycho
It came with the wild hopes, space on arrival
Ain't much that's different: "Why they hate?" Why would I know?
Play hard with it, I don't chase where the hype goes
Stay sharp with it like the tool when you lie low
Fake heart living is a waste with denial
I just put in my work and now they wait for my arrival

I can't sleep
It's Scarlxrd, duh
Hey boss, there's someone out here asking for you

You move like fucking cancer, I won't feel guilty
It was never in my plan to avoid reality but I guess I gotta do me
Pressure from the pace, 'cause I'm turning up too fast
Yet I never feel impatient
The prize is working more 'cause I'm still burning inside
Escape to a life I adore
And yet it's not in the place where hate gets in
Coping's a sign of ignorance
Bored of the talk from a life less lived
It just shows me again how to fix your shit
When it's broken in your face
A tough position I won't be in 'cause I learn from your mistakes

I just wish that you would do the same

(Yeah, yeah, yeah, yea-yeah)
I am where my destiny is telling me
