Scarlxd

Ran in straight through the back door
My nigga you get what you give
So this is the shit that you asked for
I'd rather have stayed in my crib
Don't phone me up I won't answer
Change my number on the regs
All that shit that don't last long
You let it gas up your head
Can't get caught up, fuck what you thought
I'm out here burning pay checks (money)
I don't talk much
Shit I move forward
The skeptics drive my patience
They're just boring, my tempers short
I really fucken hate them
The talk and the talk, the walk and the walk
Don't match bro, you don't make sense
Look, been this way since day ask anyone
Inside you're just a dick like a femedon
Can't fool anyone
Roll out, 20 strong
But when it all kicks off, wheres he gone?
Running this shit with my willy
So steady, oh yeah I'm so wrong its right
At 21 you don't wanna see me bight
On with the hype but the hype is alive

Stop this, don't think that I could
(I don't think that I could)
You have me misunderstood
(Yeah you have me misunderstood)
Been this way since childhood
I should, stop this, don't think that I could
(I don't think that I could)
You have me misunderstood
(Yeah you have me misunderstood)
Been this way since childhood

I'm cold like it's winter
Got cans of gas in my pit-stop
Find time on my wrist watch
Now I didn't get much bigger but all of a sudden old friends wanna switch up
That's fine I got scissors
No visitors on my premises
You don't benefit
I do not respond to messages
Its so fake, universe specialist
If I'm late, blame it on the melanin
Don't ask questions, I don't need your affection or attention
I have myself and these sentences
I know my percentages
All of you reckless kids
Are low-key sensitive
Look, too much drink
Fuck what ya think
I'm fine keeping it in
That's what I said to my shrink

He was like shit, this kids cold like an ice rink
Bright like a high-vis, Never seen anything like this
How is he nothing but violent
Take two of these yes sir, I prescribe it
Come back for more if you like it
(I like it, I like it)

Stop this, don't think that I could
(I don't think that I could)
You have me misunderstood
(Yeah you have me misunderstood)
Been this way since childhood
I should, stop this, don't think that I could
(I don't think that I could)
You have me misunderstood
(Yeah you have me misunderstood)
Been this way since childhood
