

## Dth Interlude

Scarlxd

Pu- Pu- Pull up that boy!  
Nightgrind  
Wheel up! Wheel!

Go off make a change, tear the game away  
You ain't doing nothing, motherfucker, now we're all the same  
Ran out of your luck, I see you're stuck and can't accelerate  
I don't give a fuck 'bout who don't like me, let that resonate  
Oh, never go slow  
Pick up the pace with the heat on my lap, I just feel like I'm bold  
Seriously chose, switch on myself like there ain't going back, I'm so  
blessed with the growth  
How do I know if I take it too far? That there ain't going back, I ju  
st need the control  
I need control  
I need control of the shit that I plan, fuck  
Pick up the changes  
Conversations  
I fucking hate them  
They're so twisted, all the same shit  
Am I insane? Am I crazy, no?

Trick shot make a bitch limp  
I don't give a fuck about risk  
And my dick long, got it on flix  
Keep a fix on profits, makes sense  
Been going in solid, no stress  
I don't speak on problems I've fixed  
Let a pussy boy try me, no stress  
Never burn out, going in blessed  
Trick shot make a bitch limp  
I don't give a fuck about risk  
And my dick long, got it on flix  
Keep a fix on profits, makes sense  
Been going in solid, no stress  
I don't speak on problems I've fixed  
Let a pussy boy try me, no stress  
Never burn out, going in blessed

Barely love myself when I get like this  
I could never change, can't replay no sins  
Throw me out the game 'cause you think I'm sick  
I ain't do nothing but they think that I'm twisted  
Barely love myself when I get like this  
I could never change, can't replay no sins  
Throw me out the game 'cause you think I'm sick  
I ain't do nothing but they think that I'm twisted
