

False Hxpe.

Scarlxrd

Uh, up forever
Timeless
Haha
Vader
Ayo Shoki, this go crazy
See, doing me is easy
Doing me is the easiest part, nigga
Shut me down all you fucking like, my G
Doing me is simple, simple tings, pay it bitch
Fucking pussy, Sca-

See the digits, gotta really get it
Fuck a disadvantage, we already ready
Fixing all the damage, I'ma send them plenty
My jaw automatic, fuck a semi, semi
Man I'm so ecstatic but I keep it steady
Wanna bet about it, I got plenty, plenty
I done said I'm timeless back in 2020
I'm still undecided but I'm really heavy

Whose heads coming off? Aim then I'll tell you
I ain't lost the sauce, shit is in my nature
Pray for those I've lost, real-life will change you
L's are mixed with dubs, success feels like failure

False hopes got 'em acting like they don't care
But that life brings problems, come and try me if you dare
Nigga I'm not stopping like I'm licensed to take heads
They wish that I'd stop progress but I'll hustle to the end
This that time-space bubble that I popped to get ahead
Trust me, I hide troubles like I'm tryna play pretend
Nigga, why stay humble? Most the time they unaware
I could buy that double just to flex it in your ear

I'm not trusting, I'm not trusting
I'm not, I'm not trusting, I'm not tru-
I'm not uh, I'm not trusting, I'ma try
I can't die, I got time
I got time, I got time
I can't die, I got time
I got time, I got time

I'm way too up
Don't need the love, nigga I'm me
Hate all you want, I'm dropping the pressure
I really go hard on the beat
Scarlxrd don't know any better just rap and scream
Fuck a lesson, chop your head off, nigga all the smoke come free
These days I flow when I speak, it's too easy
Ahead of my idols, this shit getting dreamy
I thought of this shit and then got it, believe me
I'm cocky as fuck so my drops coming speedy
You fucked up by gassing me up, now I'm greedy
I gave a fuck once, gave a fuck briefly
A stranger to dubs, stranger to winning
I was too young, I was too needy
Tried to get more paper in my hands

I won't show the difference that it's had
Put your money where your fucking mouth is
Feed your-fucking-self and do it fast
Can't be out here starving, moving slack
I started watching, most my fans give up and turn they back
It ain't nothing personal, I guess I'm fucking trash
Let's see your favourite try me and let's see how long they last
Who gon' stop me? They can't fucking stop me
I can't fucking stop me, I'm a force now
Steady plotting, I ain't dropping knowledge
Tryna get it popping and I'm done now
Ain't no stopping, I'm a fucking problem
Seeing carbon copies of myself now
I ain't out here tryna break a promise
Yeah I'm staying solid man, fuck clout

Whose heads coming off? Aim then I'll tell you
I ain't lost the sauce, shit is in my nature
Pray for those I've lost, real-life will change you
L's are mixed with dubs, success feels like failure

I can't die, I got time
I got time, I got time
I can't die, I got time
I got time, I got time
I can't die, I got time
I got time, I got time
I can't die, I got time
I got time, I got time
