

"All you have to do is sign"

"Pull up, pull up, wheel!"

Scar-

It's Scarlxrd, duh

Ohh

I don't wanna chase my dreams of regret
Living at the same sight scenes 'til the end
Every other day I seem to ascend
Feelin' like I wasted a theme you'll forget
I don't wanna fake my steez and pretend
Never ending change my reason again
You don't wanna take my steam to the chest
All I wanna make is feelings ascend
You thought your bluffing would save the day
M's in my face and I turned away
Black balled my vision, the price to pay
I sign the bill like the president
I've been blocked from you and it's evident
Truth may be given or surfacing
No more disclosing my purchases
We skate off the map until nowhere ends

"One of those teenagers [?]"

Yeah, ah

Peaceful I felt so full
Reach is seamless, want it ill look
Blame my vex style on it all good
For a week it was freestyles product on calls
I believed with a bleak smile, solid of course, ay

Back on my sinful regime
Oversized sat in my lane
Based on chance I've had?
I thrive left for dead
Vengeance is listening
I put my back in the game
How am I supposed to function? (Fuck)
Craft a new way (Go)

Foresight, foresight, foresight, gone
Foresight, foresight, foresight, gone
Too late to take the safe road
Foresight, foresight, foresight is gone

"Hahaha"

Ay

Foresight, what, what, what?

I don't want squeeze (No)
I don't want grief (No)
I don't want weed (No)
I don't want lean (No)
I don't want speed (No)
I don't want shit

Grave digger, shit
Graves full of shit
Woken up, shit
Programmes, shit
Grave digger, shit
Pain killer, shit
Eye for a shit
Eye man (Move)

Foresight, foresight, foresight, gone
Foresight, foresight, foresight, gone
Too late to take the safe road
Foresight, foresight, foresight is gone

"I have no idea [?] I've done all I can"
