

Ah

(Easy, easy, easy)

One try

(KÜBE)

Ay, ay, haha, ay

I've been screaming loose fuck yourself

Let them know, uh

Ain't got shit to prove to myself anymore, uh

Go head get that loot for yourself get it all, uh

Moving how I choose fuck the help yeah I'm gold, uh

Fuck

Had to switch up my pacing

Damn near doubled my rating

Pussy boys really still hating

Go and get some money start training

Leave me alone quit playing (Fuck Off)

Even in the fire I'm staying

Young scar done with waiting

Had to level up my payment

Fuck what you think

Nigga, I'm sick

3 tracks a day I've been cooking them hits

I never miss

Now that I'm big

I got the studio inside the crib

Getting a kick

Wake up and spit

Hustel so hard I forget 'bout the biz

Life is a risk

I need a whisk

Pay attention to the fine print (shit)

Lose track of the week

I blink twice then it's the weekend

That shits fine by me

Wake up the next day and go again

I don't have to breath

Swim in liquor like a merman

Don't talk back to me

Everything I do is working

Double my gin

I'm seeing 2 of myself out of sync

Covered in ink

Ignored my shrink

I've been so reckless I live on the brink

I might regret it

I never regret shit

Sorry I'm speaking how Gemini's think

Still doing bits  
Steel be the link  
I'd fucking choke if you tug on that shit  
Uppercuts break your ribs  
Typical life I live  
Let me get by then dip  
I feel so sick  
Never so sad no more  
I feel so sick  
Never so sad no more  
I feel so sick  
Cynical life I live  
Criminal minds get rich  
Copping all rights real quick  
Let me me go buy them shits  
Let me go find my drink  
Slipping on the gin with gin  
Lifting up the vibe I bring  
Growing up a mile then dip (Move)  
I do what I want to  
I live how I want to  
I scream when I want to (When I want)  
Go  
Fuck  
Yourself  
You  
C..t (Bleth)
