Little bitch, she really wanna fuck a rockstar like me
Always looking for the deep end and I'm swan diving
All the niggas that are here, they better start fighting
Tear the shit up 'til we really get the high come in
I've seen it even before there's no love
Fed up when they fucking up conversation
I spend all my time up inside the mansion
Bitches take a look at my eyes and they faint

Wanna slow down, but I can't stop jumping
Now I smoke crack and my mind stay pumping
Gripping on her thigh, no lie, she loves it
Get into the gig and then we make the money talk, bitch
Niggas love to hate, I'm not afraid, I'm always running
I keep all the passion, yet they taking all the bullshit
See it on my face, I should've cover it up
Sick of the love, didn't realize it was stupid
Pussies tryna speak, I've seen, I heard it all before
But I always make you move, your fucking feet are on the floor
Hold up, girl, wait, listen, you know I'm cheeky and I'm raw
But can I have a threesome while I freak you on the fl-

But I always make you move, your fucking feet are on the floor
Hold up, girl, wait, listen, you know I'm cheeky and I'm raw
But can I have a threesome while I freak you on the floor?

Love me 'cause I'm honest, even though I'm fucking toxic
Bend it over, drop it, then I might just let you fuck me
You won't find no better, you're addicted and you want me
I moved to the next, I never cared, I let your heart bleed
