

## Haunted

Scarlxd

Let me take the ashes when you burn!  
Bitch fuck yourself  
I'm filled up with life while you're stuck under the ground  
It was all in the moment  
Hatred was the only thing around  
So much that I can't say  
I hope that you cry  
Fuck your beautiful features  
They will haunt me for life

Stop the rushing better watch the running you won't catch me bluffing I got rules to melt something's coming if it's God we love it better run for cover if it's something else!  
I reflect life of the lxrd, yuh  
I got the racks I'm not poor, yuh  
Okay then let's even the score, yuh  
I fucked your bitch she's a whore, yuh  
I just found my love, oh yuh  
Put gas in my lungs, oh yuh  
Don't mix them drugs, oh yuh  
I way past that stuff, oh yuh  
Turn back to your old ways once you see that this is dead  
You know that this entire life is projecting out your head  
Stars are in the sky and you're worried 'bout the shit they rent  
You live inside a hologram, your life is fucking great and blessed

Let me take the ashes when you burn!  
Bitch fuck yourself  
I'm filled up with life while you're stuck under the ground  
It was all in the moment  
Hatred was the only thing around  
So much that I can't say  
I hope that you cry  
Fuck your beautiful features  
They will haunt me for life
