

I NEED SPACE

Scarlxrd

It's so bittersweet how you say to me
That I push you away
Then I let you leave
With all my energy like you wasted my time
I'm on the ropes, yuh huh
I don't need no help, yh
How do you know
Leave me alone
This is the goal
I won't see your face again

Sit back give me fucking space
Just sit back give me fucking space
You're too close give me fucking space
I can't breathe
I'm suffocating

You're so blind
Walking circles all the time
You're so blind
Always thinking you're right
Well you're not
This is why
I can't focus every time
Self-esteem's what I try to gain
When I try
Cross the line
You're just lurking every time
Right behind
Why is it this way

Sit back give me fucking space
Just sit back give me fucking space
You're too close give me fucking space
I can't breathe
I'm suffocating

Aha, aha
