Scarlxd

Y-ya see now yeah? it's pace on
COSMIC
Ay, ay, ay, hah
Scar, scar, lxrd
Night Grind

Never stressed breeze through the rough
Pattern life and live it how I want to
She gonna keep me down I've had enough
Always think a demon was in front of you (Ugh!)
Never stressed breeze through the rough
Pattern life and live it how I want to
She gonna keep me down I've had enough
Always think a demon was in front of you (Ugh!)

In my head is the answer
I'm a God been above
Keep that shit don't need the help
I keep myself on supercharged
New goals I'm 'bout to fucking choke them all inside my palm
On a roll
Keep your comments to yourself, don't give no fucks
Realized I'm the realest in my pain
I don't care about my image or these twisted games
Got stash and racks buried in fields, you know why I don't use a safe?
It's obvious they rob and duck and demons rob you for your chain, bitch
Never will change, I'm on ape shit
Life isn't strange, it's amazing
Why would I suffer the same shit
Posted up, hating the same things
Cover my mouth when i'm raging
I see your white flag is waving
You can't keep up with the pacing
Oh well, killed my shift now the night's over
Slowed down gin cuz I like sober
Know something, let them tide over
Hold shit in like a vice over
Phone don't ring cuz my lines colder
Life of sin got wiped over
Cope with king on a knight shoulder
That is the shit that they die over

Let's go on again
Keep it rollin' keep it rollin' keep it rollin'
Pace! Pace up, ayy, ay, ugh, yeah

Back and forth
I don't really go back and forth
It's a silly joke, that's enough
I climb heights the dash the cord
I don't share my past no more
I can't stop the past 'til I'm past them all
I'm bigger than trash support
I headline then head home sore it's easy for me
Effortless how I just glide on the beat
Man on a mission I'm coming for seats
If you don't think I got what it takes

Look at my catalogue then you gon' see
Entered the new year by upping my fee
I want my money racks and P's
Niggas can't do this shit like me
Niggas can't do this shit like
I tore the mask off my face
Believe in the hype and now the hype done changed
Leap to the sky 'til I lost my brain
It's the treason and lies that knocked my faith
Like never that they can knock my faith
But never that nah nah nah nah never that never that they can't knock my fai
th these fuck can't never knock my faith
These numbers can't buy my place
With hundreds I'll cop that plane
Catch me going in in the night time
Top spot's just a rhyme away
Understand that the times have changed
No respect for the industry games
My life's private keeps me sane
I don't care about tweets or fame
Doing what the fuck that I want to
I live life out my pockets how I want to
Fuck yourself, I live how I want to
I live life out how I want to

Never stressed breeze through the rough
Pattern live and live it how I want to
Shit can't keep me down I've had enough
Always grit your teeth at what's in front of you (Ugh!)
Never stressed breeze through the rough
Pattern live and live it how I want to
Shit can't keep me down I've had enough
Always grit your teeth at what's in front of you (Ugh!)
