Godly how I see this shit
Body and soul can't miss

This is that feedback thing
All of my plans, they big
And now I can be fixed
I can't fake my life for the quids
The world's in my brain
The world's in my brain

Wanna play a war? Let's go
One phone call, let's go
Ain't no remorse, let's go
Bodies to floors, let's go
Can't no remorse, let's go
Fuck all their thoughts, let's go
Kill it at source, let's go
We used to the gore, let's go
