Scarlxrd

From the top  
I'm so sick of these leeches  
I'm just under the night, huh  
(Go)

Leeches  
I'm so sick of these leeches  
Out for blood if you're breathing  
Pick your poison to pieces  
I'm so sick of these...

Fuck nigga slow your role  
Lethal attraction the case gets closed  
Move like predator rip out your bones  
Never been regular not even close, uh  
Fuck that got a bomb in the gas tank  
Make your head bang better gimme that no gift wrap, agh  
Pussy you sleep you cip cap  
Now I gotta really feel the kickback  
Confidence, confidence  
I think I'm God I'm so off the shit  
Off the shit, off the shit  
I just relapsed to my toxic shit  
Fuck it imma get waved, fuck it imma get wasted  
We relapse and don't change, always that same shit  
Come on then, come on then  
Rob it and run with it  
Watch how you're living your life I see suffering  
Go on then scream for a while  
See for a while  
Feel for a style  
Oh I'm so fucked  
All the pleasing heals the numb  
I open gates I see them fleeing  
All them demons weak as fuck  
They couldn't even stop me breathing

So you think you have options?  
You seek faith as a solution  
Ayy, you think it's all optimism  
But it's your execution

Your so full off shit  
All your words are so pathetic  
You won't last a second bitch  
Take your words and then regret it  
Toe to toe I'll I fucking break you  
I'll fucking split your head wide open now let's see what's on your mind  
Fuck what you say  
Fear is against you  
Numb to the pain  
Anger is honest  
Fuck what you say  
I'm breaking the promise  
Fuck what you say  
I'm breaking the promise
