

LIL T-REX.

Scarlxrd

Could I go back I should
Little T-Rex I like to beast it all
I know what's next I like to fail and grow
Little T-Rex I want it all
Little T-Rex I want it all

I can not relax and shave my horns
Life has gave me signs I can't ignore
Focused on the time im getting sore
I live my life and you live yours
Tell me why we always start again
Swear to god im sick of losing friends
Why would I get close to lose again
Guess I'm riding solo 'till the end

Could I go back I should
Little T-Rex I like to beast it all
I know what's next I like to fail and grow
Little T-Rex I want it all
Little T-Rex I want it all
Little T-Rex I want it all
Little T-Rex I want it all
Little T-Rex I want it all
Little T-Rex I want it all
