

Boot up, boot up, wheel
Ayo Shoki, this go crazy
Ess, shut the fuck up (Aye)

I feel divided, I can't explain it (Reapyy)
Still undecided, so over changes
I'm too defiant, can't really blame him
I'm always trying, but got no patience

Show me all the shit I've done before this life
I ain't tryna die and come back wasting time

Do you believe your love is really relevant?
I'm down to think this way, but show me evidence
Life is like the bitterest of medicines
But fuck it, we gon' O.D for the hell of it

I can't explain it
Still undecided, so over changes
I'm too defiant, can't really blame him
I'm always trying, but got no patience

Me, I'm just doing me, shit don't cost a thing
You're worried 'bout the wrong ones in your life, that shit gon
' sting
Go 'head, let it ring, I ain't answering
I'll be on my 'lone vibe, I'm so licked up off the gin
Licked off from the gin, ate up every swing
Come and send those shots, I'll send them back with extra thing
s
Scarlxrd's got his thing
Scarlxrd's still the king
If you disagree then let's kick back and see who wins

I can't explain it
Still undecided, so over changes
I'm too defiant, can't really blame him
I'm always trying, but got no patience

Show me all the shit I've done before this life
I ain't tryna die and come back wasting time
