

... appears to be man-engineered...

Both of you! Silence!  
He is escaping!

We've got none, no sympathy, out here  
We laugh at suffering  
Go, go, go, go, go, go, show me what you've got  
Go, go, go, go, go  
Ahhh, fuck off!  
Safety's got you sick  
Open up your eyes  
Fuckin' save yourself  
Nobody gives a fuck if you die  
I was made in hell  
I can't help this life  
Fuckin' save yourself, bitch  
Nobody gives a fuck if you die

Today's doctors runs at medical crisis truly worked medical miracles  
Boot up, boot up, wheel

Aye, my shawty she bad, she get her throat fucked  
I've been grinding tryna to get my dough up  
Now I'm shinning like the diamonds that get sold  
Might just ice my wrist and fill my mouth with fucking gold  
Don't you forget I'm the man that didn't boast  
That's so hard now I feel that man has got the most  
Yeah, treat me with respect I give you more  
I swear it's like a riot every single show

Get up, get up, get up, get up  
SINK! (Eugh!)  
I can feel the hate inside us  
We wanna find release  
Being so positives fine  
But everything feels so toxic

We've got none, no sympathy, out here  
We laugh at suffering  
Go, go, go, go, go, go, show me what you've got  
Go, go, go, go, go  
A-h-h-h, fuck off!  
Safety's got you sick  
Open up your eyes  
Fuckin' save yourself  
Nobody gives a fuck if you die  
I was made in hell  
I can't help this life  
Fuckin' save yourself, bitch  
Nobody gives a fuck if you die
