God will not, God will not

God will not fucking save you, bitch
I'ma kill 'em all, I'ma kill 'em all
I'ma kill 'em all, I'ma kill 'em all
I'ma kill 'em all
I'ma kill 'em all, I'ma kill 'em all
I'ma kill 'em all, I'ma kill 'em fucking all
So sick
Tell me does anyone know this
Take out the messenger so quick
Saying whatever to focus
Get all the pressure I broke in
How can I mention the low shit?
Neither direction is closed in
Freedom is mentally potent
Fuck

Pick up the pace
Never social
Been on distance
That's the risk y'all take
This worlds ending in your vision
And you still partake
In the circus act division
It's a bit R-rated
Are you old enough to witness this?

Pull the sword out my back (Out my back)
From whom I can't say (Uh)
I don't feel attacks
I'm numb to the real pain
Striking some fear into all of my enemies
Lashing out heavily never will get to me, uh
Really was never a sweet to me
I'm the amphetamine, taking me heavily, uh
Got out my head and jumped into a Bentley
I'm glad I'm ahead of the lesser me, uh
Had to decide on my energy
1 2 3 4

Ohhh
Everything we feel is skin deep
You found your peace?
Give me that
You throw out hate like its endless
Consequence will arrive
It's the end that you're dreading
Don't be surprised you're in hell

Don't be surprised you're in hell
(I'ma kill 'em all, I'ma kill 'em all
I'ma kill 'em all, I'ma kill 'em all)
Stay down, motherfucker, stay down
Stay down, motherfucker, stay down
Stay down, motherfucker, stay down (Eugh)

Yeah, ah
Freakish about my pockets
I might talk shit like woah
Freakish about my pockets, I might talk shit

Pick up the pace
Never social
Been on distance
That's the risk y'all take
This worlds ending in your vision
And you still partake
In the circus act division
It's a bit R-rated
Are you old enough to witness this?
