

## Private Flight Interlude

Scarlxd

I done really spent a million quid  
House is big, we living off the grid  
All them niggas thinking they were next  
Where the fuck you at? You came and went  
Threw 100 thousand on the trip  
That shit light it never made a dent  
It's just me and Gina on the jet  
Always flying high, no fear  
Gotta keep it tight 'cause nigga's weird  
Have to the up price every year  
Paper talk lourd, can't hear  
I'm still spending money, no care  
Magic man, I pull it out my ear  
Watching all this money reappear  
Next trick, she make it disappear  
Next trick, she make it disappear  
Next trick, she make it disappear  
Next trick, she make it disappear

Aye, fucking on my shawty, she says I smell like dessert, uh  
Fuck who came before me, I'm still trapping till it hurts, aye, till  
it hurts, aye  
I put in that work, aye  
Got me moving forward like I never had a care, aye  
Hear that money calling, guess it's time to get to work, aye  
They thought they was balling but I spent that on my shirt, aye  
Why these niggas stalling? They hold back and never learn  
I can't wait my turn, I run in there first  
She gon' top me off until my dick about to burst  
Hublot on my clock, I prayed for times like this in church  
I might go buss down my Apple Watch, it's only fair  
Uh, uh, uh, I turned to a monster  
Told her shut the fuck up, uh, my ears real exhausted  
One time I ain't give a fuck then I went and got rich  
I might get another truck but I won't tell you, sorry  
You might have to beam me up 'cause bitch I'm really off this  
Concert underfloor the heating, I don't do no carpet  
This life real deceiving 'cause you get it if you want it  
If you-, if you want it

Your fault, look at what you started  
Look at what you started  
Look at what you started  
You see the shit accomplished  
You got left with nothing  
Swerve and make you car sick  
Look at what you started
