

KÜBE

Broke down, still messy  
Fix my brain with heavy hits  
Old sound, very scary  
Overdue with deadly fix  
Silent mouth make them wary  
Stacking up these pennies bitch  
Slow down make your penny  
Acting tough won't make you rich

I don't read comments that's it (ah)  
Going for the comments that's it (ah)  
Keep me out the drama that's it (ah)  
I don't need problems that's it  
Let me keep my promise that's it (ah)  
Livin with the trouble that's sick (ah)  
How do that mean? Watch you broken down  
Focus on your pockets that's it

Now we stuck in my time zone  
You ain't gotta go so hard on your image nigga shit is making my eyes roll  
Let the music fucking speak for itself if it's good enough I'm sure they'll  
buy more  
Misconceptions from my high-hopes  
I got the attention to die for  
Keep it comin' for the right lord  
Keep it comin' for the beast  
Really living what I speak  
I've been on a mission this whole time  
Now I'm in too deep  
I've been running like a thief  
I got bruises on my feet  
I don't need a fucking co-sign  
Going harder than the weak

Broke down, still messy  
Fix my brain with heavy hits  
Old sound, very scary  
Overdue with deadly fix  
Silent mouth make them wary  
Stacking up these pennies bitch  
Slow down make your penny  
Acting tough won't make you rich

Keep me out of your head!  
Keep me out of your head!
