Scarlxd

I've seen this shit and they come and they go  
And it's evident nobody's feelin' you bro  
Scar is heaven sent elegance flows through my soul  
I'm the veteran better than all of you hoes  
There's no telling when I'm 'bout to catch up and blow  
It's irrelevant, 10% trying is all (boot! boot!)  
That's a murder pen  
Weapons in right hand and drawn  
I'm maleficent I'll drop a curse on them all

Weh the bloodclat do you? Siddung  
Fuck, come on man  
They know, th- th- th- they know, aha, yeah  
WNDWS  
Yeah yeah  
Man's gonna have to go straight in

Is that Shoki on the beat?  
Yeah, lord, uh  
Yeah, yeah  
Uhhhh

I've seen this shit and they come and they go  
And it's evident nobody's feelin' you bro  
Scar is heaven sent elegance flows through my soul  
I'm the veteran better than all of you hoes  
There's no telling when I'm 'bout to catch up and blow  
It's irrelevant, 10% trying is all  
That's a murder pen  
Weapons in right hand and drawn  
I'm maleficent I'll drop a curse on them all

Please don't try me, nigga don't try me  
Hush your lips, your better not likely  
Most of y'all like me, act just like me  
On my wealth? That's very unlikely  
Why would they try spite me, they just bite me  
Then act like they ain't heard nothing by me  
I'll quit hyping I see typing  
You ain't got lyrics your trash on my ting  
Making it dirty, they keepin' it clean  
No I can't give em mercy, I'm making a scene  
All the chat isn't worth it  
They broke and they weak  
I'm not passing the burdens  
I see what I see  
Living this shit to the fullest  
Let them all doubt I'ma get up and do it  
Pull and foul nah you won't ever do it  
Gone of the liquor senses are fluent  
Hold on  
Get the gloves and the mask on  
Don't make me turn gully yeah Scarlxrd's fully a mad man  
Spill blood straight on the masters  
They can't flow they're actors  
Throw two shots then evade  
Knock back two shots up and away

You kept quiet that's a lucky escape  
If I black out then I'm catching a case  
Been sick of this shit  
Keep it coming I'm immune to it  
Chewing on my fist  
All this tension I'm still losing it  
Gotta get a grip  
Like it's difficult  
We know it is  
Karma's got you bitch  
On the centrefold off coffins, dig  
Let me kick back and then calm it, uh  
The shit that you thinking is toxic, uh  
I see you heads up filled with gossip, uh  
I've been around and I'm yet to be proud  
Man I'm guessing my mental has fucked it, yuh  
Level the sound yeah you see I'm about  
Yeah I really be on some last boss shit, yuh  
No they can not relate  
Get the fuck out my face  
No they can not relate  
Get the fuck out my face  
Silence, I've already given up  
Flows on ten  
But I'm not giving into silence  
Yuh  
I know the feeling  
Head back now we wanna see you run  
Silence, I've already given up  
Flows on ten  
But I'm not giving into silence  
Yuh  
I know the feeling  
Head back now we wanna see you run  
  
Cut that, right now  
Cut that shit  
Done, no more  
That's it, I quit  
Pfft
