

Secrets

Scarlxrd

Yuh, yuh, yuh, yuh, told them, ha
I told them niggas I'm past the point of caring, hahaha
[*Japanese ad-lib*] (Lxrd shit)
Shouts out to my man, Long Lost, long time
Long Lost
I-I-I'll expose your dirty little secrets, blegh
[*Japanese ad-lib*] (Die, die)
Die (Die)
Die (Die)
Break (Break)

I-I-I'll expose your dirty little secrets

Careful (Die)
They'll crucify you (Fuck)
You could never walk a mile in my shoes (Break)
Blood stains never leave
These tainted palms can't be cleaned
You're fearful (Die)
O-o-o-on your own
Hell's your home with that heart of stone
What's the view like when you're on your knees?
Go fuck yourself 'til you bleed, slut

You niggas be wasting my time, I'm divine when I shine
I might blind you so huddle back
All of the time when I rhyme
I recite every feeling I brush underneath the mat
Oh no, I don't like you rappers
I'm fine on my own, I got clout and a hundred stack
Bitch, yes, I know that I changed, it's insane
I got tired and ever so bored of that (Aw yeah)
Sometimes I feel like a corpse, yeah
Sitting inside is like torture
Baby-girl hand me the rope, yeah
Fuck that
Everything's blessed but I don't like nothing
Roll with a vest on but I take head-shots
Eyes roll back 'til I can't feel nothing
Fuck the attention, everyone is a peasant
See me about, start something
Oh God, you don't want it
I've been thinking about my life
'Cause I sold my soul and got nothing
Still burn holes in my sky high budget
Look me in my eyes, stop running
Then you'll see I'm really disgusting
I'm so lost, I can't function

[*Laughing*] (You'll fuck him up)
(Scarlxrd, aw yeah)

Careful (Die)
They'll crucify you (Fuck)
You could never walk a mile in my shoes (Break)
Blood stains never leave
These tainted palms can't be cleaned

You're fearful (Die)
O-o-o-on your own
Hell's your home with that heart of stone
What's the view like when you're on your knees?
Go fuck yourself 'til you bleed, slut

Bitch, I hope you're broken
I know no-one else can fix you
Suffocation for the chosen
Self-esteem might be your issue
Now let go of love you're holding
Show me really what you're into
Fuck, you make me want to throw up
I remember how I kissed you
I don't want you back
Sweep those mistakes to your mat
Bitch, why ask me about my past?
Then hide when I tell you facts
Maybe I'm a liar who can't stand to be alone
Self-proclaim to be the Lord and sit upon this fucking throne

Careful (Die)
They'll crucify you (Fuck)
You could never walk a mile in my shoes (Break)
Blood stains never leave
These tainted palms can't be cleaned
You're fearful (Die)
O-o-o-on your own
Hell's your home with that heart of stone
What's the view like when you're on your knees?
Go fuck yourself 'til you bleed, slut
