

## Sherry's Interlude

Scarlxrd

Listen to the way that I'm sounding  
Now I got less people around me  
So focused raking the bands in  
Sing along to my own anthems  
If you don't like me then say it  
Only broke niggas do hating  
Certified g's that I came with  
One night 5 locations yea  
Best friends own 10 yards  
Other friends of mine whip in the trap  
We still link up in our foreign cars  
One thing in common we're all about bands  
You really don't get it  
This right here is my mums pension  
Her whole life it was so hectic  
What you know about no food or electric  
Cause we gone run the bands  
Cause we gone fuck up the racks  
Cause they gone sit in the trap  
Cause we gone write all these raps  
Cause we gone run up the run up the bands  
Cause we gone run up the run up the bands  
Cause we gone run up the run up the bands  
Cause we gone run up the run up the bands  
Cause we gone run up the run up the bands

Watch me go fuck up my check  
See I don't wear ice but I got ice on my neck  
See about 2, 3, 50's right there yeah yeah  
We just wanna go ahead run up the bands yeah  
We just wanna go ahead run up the bands yeah  
We just wanna go ahead run up the bands yeah  
We just wanna go head and run up the bands
