

# TERRAFORM.

Scarlxd

Get out of my head!  
PULSE

You tyrant  
This is my way and I'm tired  
We cannot change upon violence  
Open your fucking heart and realise that you're fighting

Terraform this place!  
Terraform this place!

Delete it all, start again  
We take the fall  
And not your friends  
Disarm the poor and start again  
Don't trust a soul  
Arms defense  
Remove everything  
Start again, go blame me  
Remove everything everything  
Destruct  
Bury your change

I've tried before  
It's like I'm lost inside my head  
I've tried before  
It's like I'm lost inside my head  
My head  
Get the selfish from me

You tyrant  
This is my way and I'm tired  
We cannot change upon violence  
Open your fucking heart, and release that you're fighting

Terraform this place!  
Terraform this place!

Delete it all, start again  
We take the fall  
Don't trust a soul  
Arms defence  
Remove everything  
Start again, go blame me  
Destruct, bury your change

I've tried before  
It's like I'm lost inside my head  
I've tried before  
It's like I'm lost inside my head  
My head  
My head  
My head
