

THE RETURN.

Scarlxrd

Give me a goal or some
I wanna roll or some
I took a sip of gin today
I'll kill a troll or some

"We explore a large world around us,
And we found that millions of objects... call us gangs"

Gone off the liquor, I'm really on 10
I kill the game then I leave it to rest
Back on my bullshit, I killed it again
Might fuck around and go put on my mask
Nigga I'm back watch me vomit (yah)
Finish the shit that I started (yah)
I'll take a break from the pop shit (yah)
Then I get back to my wallet
(Wait)
Them niggas hate
Shut the fuck up, don't step out of your place
Give me the hate
I like to rage
I took a break, now I'm back to my ways
I said I took a break, now I'm back to my ways
You bitch
Make the wave you ride, you bitch
I'm the force in life, you bitch
I'm the wave, don't lie, you bitch

It won't get you
It won't get you
It might get you but...
...death gets us all

Give me a goal or some
I wanna roll or some
I took a sip of gin today
I'll kill a troll or some

I always hoped for some
Now I got dough and some
I took a look in my bank today
That shit's a loaded some
Lips smacking the truth
Live fast and consume
Kick back and review
Immune to rebuke
I can not stand the reviews
I don't need no one to prove
I told them to stand in my shoes
I give them more business than you

Enemies still on the menu (ay)
If you get close then I let you (ay)
Watch all the talk they might test you (ay)
Might break your nose just to bless you
Enemies still on the menu (ay)
If you get close then I let you (ay)

"I know it sounds silly, dear, but do it for me, please."
