My bag is a suitcase, only cash gon' climb out  
Told you I'm immune to hate, I can't catch the hype doubt  
Leave them with a screw face from the shit I write down  
It's like I refuse the fame the way I switch my style out  
Thought this was the UK 'til bro pulled the 9 out  
Shit look like the USA in the safe at my house  
We can still run you a fade scrapping at the hide out  
Wake up, skrrt, remove a brain, they just forced a sign out

You afraid hating while you by-stand, uh  
New to game, pussies calling timeout

I blow my bag quick as fuck easy I hit me a rebound  
Stay in my bag, I'm still in the cut  
I make my paper from me styles  
Since I left y'all lost as fuck  
You need me to keep up your e-style  
Bright idea come fuck with me and turn his lights out  
I just got the pack, abuse the beat like I don't like sound  
Pussy, go 'head, think shit sweet until we ride out  
I ain't gotta scream for you to believe, I'll pull your spine out  
I told them to please just give me a reason and I'll fly sound  
It's getting much harder leaving my freedom for the high ground  
I'd rather just call it quits and leave it 'til it dies down  
Look what I started, can't believe this is my life now  
Less of the talking, more to win, let's get it right now  
All of this money I'm spending but still, it never dries out, uh, yeah

You afraid hating while you by-stand, uh  
New to game, pussies calling timeout
